AN OLD JOKE:

AN "IT" JOKE:

THREE IMPORTANT POINTS:

- Inflation targeting (**IT**) has been **very successful in delivering price stability**
- The **transmission mechanisms** of IT are **complex**
- **Transmission mechanisms** are **imperfect** and may **take time**

COMPLEXITY

Figure 1. Channels of Monetary Transmission

SIMPLIFYING:

CHALLENGE 1: **MARKETS & INSTITUTIONS**

- **Basic assumption:** that **markets and the institutions** that run them **are there and work efficiently**
- Examples of **markets:**
 - An **interbank (money)** market
 - A **capital** market—private and public papers
 - A **foreign exchange** market
- Examples of **institutions:**
 - **Central bank** that is independent and can set its own policies
 - A competitive **banking system**
 - **Institutional investors**

CHALLENGE 2-A: **ASSET MARKET IMPERFECTIONS**

Two major **financial** assets markets in Colombia:

- **Stock Exchange:** stocks, private bonds mostly (COLCAP)
(3% to 4% of GDP)
- **TES Market:** government bonds: (38% of GDP)
 - **Foreign investors** take part (26% of stock)
 - **Pesos and UVR (indexed bonds)**
 - **Different maturities**

EMS FACE DAUNTING CHALLENGES WITH IT

HOWEVER:

- Inflation targeting (**IT**) has been **very successful in delivering price stability**
- **Transmission mechanisms** are **imperfect** and may **take time**

**A TOUGH MOMENT, ESPECIALLY FOR UKRAINE
BUT KEEP UP THE GOOD WORK!**

THANK YOU!
